

ANALOG PEARLS VOL. 4

OLD GOLD

CRAIG HADDEN & CHARLIE CARR

No matter what type of popular music you listen to today, almost every style has its roots in the "Oldies" - the rock'n'roll of the '50s. There's something about the music of this era that remains great even in the '80s. This album tries to capture some of the flavor of the '50s, from the black influence in songs like "Yakety Yak" and "Chasing Gang" to Buddy Holly's "Heartbeat" and "Love's Made a Fool of You", from the rock-a-billy "Bye Bye Love" to "Runaway". We tried to recreate these songs in such a way as to bring back memories for those of you who still remember them, as well as to offer something fresh and exciting for those of you who have never heard them before. I think you will agree with us that "Oldies" never die.
