ABSOLU

ABSOLU is a love story before it is a musical work.

ABSOLU is a love story before being a musical work.

It's a passionate encounter between a woman and a man, between Pop and Jazz.

Winter 2020 provides the perfect backdrop for Natalia (Producer of Seven Garden Production) and Sidney (Producer of Black Stamp music label and instrumentalist) to share their love for music and the great standards, gathered by the fireside in their little house on the outskirts of Paris.

Natalia and Sidney have a brilliant idea : to combine the best of their two worlds, Pop and Jazz. Natalia brings a group of singers with angelic voices, all from her family, while Sidney collaborates with instrumentalists from the realms of Jazz, Blues, and Soul, capable of elevating diverse musical arrangements to new heights.

This creative journey unfolds serenely to the rhythm of winter, telling the story of their love through the great pop hits of the 80s (Kim Carnes, Fleetwood Mac, Peter Gabriel and Kate Bush, Johnny Clegg, Cyndi Lauper, A-ha, Neil Young, Bob Dylan).

A sweet, pure story, much like the rare "Absolu de Parfum," which represents the essential and enduring foundation of a fragrance.

Absolu is a musical work that lays bare these global hits, preserving only their essence and soul.

To achieve this, Paul and Jean Vernhères reimagine each piece with great sobriety, using guitar and saxophone, complemented by the siren-like vocals of the female group Les Liserons, whose warm and ethereal voices take center stage.

While awaiting its theatrical debut as a series of dance and song performances, Absolu will first be released as a high-resolution preview on the 2xHD label.

Welcome to the airy, poetic, and sensual world of Absolu, where nostalgia, innocence, and gentleness will captivate your soul.

TECHNICAL INFORMATION

The 2xHD Fusion Mastering System: In the constant evolution of its proprietary mastering process, 2xHD has progressed to a new phase called 2xHD FUSION, integrating the finest analog, with state-of-the-art digital technology. The mastering chain consists of a selection of high-end vacuum tube equipment. For the recordings on this album, the original 88 /24 master were played on a Nagra REF DAC high-end tube playback converter, wired with OCC silver cable to 2xHD analog mastering tubes electronic system permit 2xHD FUSION to obtain a better resolution and 3D imaging. The resulting signal is then transferred back into high resolution formats by recording it in DXD using a custom 2xHD Technologies A to D converter. All analog and digital cables that are used are state of the art Siltech. The 2xHD FUSION mastering system is powered by a super capacitor power supply, using a new technology that lowers the digital noise found in the lowest level of the spectrum. A vacuum tube NAGRA REF DAC is used as a reference digital playback converter in order to A and B with the original analog master tape, permitting the fusion of the warmth of analog with the refinement of digital.
