This album represents of the diverse musicality of Mario Rafael Junior Prima award winner piano artist. While his previous album with his trio leads his audience into the world of mainstream jazz, the sound of Rafael comes together as a mix of contemporary pop music flavoured with improvisation. Another important element is the use of electronic sounds which brings new colour and makes an exciting layer in their music. In the creative process the band puts an emphasis on experimenting and innovative thinking.

Woodlark

I really feel empty inside
Just your true sound could wake up my static desire
I really feel inside
But your lullaby is lie

You may do things what I don't wanna know
I wanna change the role like your spoil
I may do things what you don't wanna know
But I was your spoil not you my toy

I really feel empty inside
'Cause your crabby taste is sweeter than anything in
my life
I really feel inside
What a pity, my woodlark

Another bittersweet symphony
From our bittersweet life
We try to keep alive our romance
Believe in our false love

Rush

I stand on the rolling Earth
All the things are rusty around me
Let's leave all expectation
I'm not in captivity

I just have to find the way to get the things
I can't live without
Sometimes My eyes go out of focus
And I can't find my sound inside

Feel free

When you feel yourself alone,

Just close your eyes

Imagine that I will be there

And I make you smile

We're gonna feel the infinity

That's what makes you free

God gave us children's naivety

That power of love destroys the walls

Just feel free

Let's hold each other's hand

And stop deny the miracles

Let's feel the river's scent

And you are far away my love

My favourite thing

You are my favourite thing
That's why I'm always missing your eyes
And your pretty smile
Girl, ohh such tempting lips

You are my favourite thing
That's why I'm always missing your hugs
Heaven was being in your arms
But now you're far away
I felt your yearning love
I thought our kiss is the key for being alive
But now I take a look around
And you are far away my love

Dikhlem

Sostar mukhlan man muri cini shej.

Black Butterfly

You do more than just paint a pretty picture
You're not only a beautiful creature
You do more than just paint a pretty picture
You're not only a beautiful creature

Their brightly colour wings have always flecks and
stripes

But you have some special skills
You have that pigment what makes your wings black
Just like red or blue or rose

Shine, Sun! Shine!
'Cause he needs you to fly
Shine, Sun! Shine!
'Cause World needs his waft
Don't fret! Don't Doubt!
You're the black butterfly
Shine, Sun! Shine!
'Cause he's our black butterfly

Tell me

Tell me how to love u boy
Tell me how to care!
Tell me why you want another,
Tell me why you did?

I'm still missing your eyes
It makes me crazy
I wanna feel you boy
When you touch me
I don't wanna see you when you lie to me

I'm still seeing your smile
It makes me crazy
I wanna feel you boy when you touch me
I don't wanna see you when you lie to me

You know it's not fair
You are a bad bad boy
Why did u do that
I wanna feel your body again

I wanna feel your body again
I wanna hold you tight all night again
All I want U
Boy I need you
Come back to me boy
I want you, baby

Pulse

**God breathed the sense out of life
He gave light and air and ocean and sky
You get this pulsing allness
it's up to you how to use that slant**
