TEXT:

This album was recorded over 2 days at the end of October 2021 in the sacred studios of the ORF's (Austrian national broadcaster) 'Radiokulturhaus'. The first 6 songs (Viny 1) are compositions played by Blueblut together with Chris Janka's 'Totally Mechanized Midi Orchestra'. Tracks 7-11 (Vinyl 2) are improvisations together with Nicola Hein and the Mechanical Orchestra. The orchestra is controlled by an artificial intelligence software that Nicola Hein programmed specifically for robotic instruments. The songs can be heard 100% as they were recorded live in the studio and yes, robots can improvise!

The entire session was filmed, which resulted in the documentary film "The Garden of Robotic Unkraut" directed by Angela Christlieb (<https://www.angelachristlieb.com>) and distributed by Sixpack Films (<https://www.sixpackfilm.com>).

Recorded on the 24th and 25th of October 2021 at ORF- Radiokulturhaus, Studio 2
