

**Hi there music lover,**

We are happy to see you here at the NativeDSD Music Store. We hope you will discover the new quality of Direct Stream Digital Stereo, Multichannel, and Binaural sound, acoustics and listening pleasure. At the NativeDSD Music store you will find over 1,800 albums in DSD Stereo from over 70 record labels (and counting!) that bring you as close to the original performance as possible. (Some of the albums are also available in Multichannel, Binaural and DXD.)

As of September 2020, NativeDSD also offers Stereo, Binaural and Multichannel FLAC files. These FLAC files are available in High Resolution 24 bit 96 kHz and 24 bit 192 kHz PCM as well as Standard Resolution “CD Quality” 16 bit, 44.1 kHz PCM - created from DSD and DXD editions of the albums by Bit Perfect, using their unique “Zephiir” conversion process which produces high quality FLAC files.

This NativeDSD Starter Pack is provided free of charge - with special thanks to the participating labels! It gives you, the listener, a chance to sample some of the fine High Resolution music at NativeDSD – and will encourage you to buy the complete album editions of these fine artists once you enjoy these starter pack samples.

You will find links to the full albums that these Stereo DSD and Multichannel DSD sample tracks are taken from. This includes information on the corresponding Artists, Albums & Labels in the detailed track listing in this booklet.

**Jared Sacks & Jonas Sacks** | Co-founders of NativeDSD Music
