

DSD
Direct Stream Digital

A woman's silhouette is shown in profile, facing right. The background is a vibrant, abstract space scene with a mix of purple, blue, and green hues, resembling a nebula or galaxy. Several small, circular images of Earth are scattered throughout the scene, some appearing to float around the woman's head. A large, dark red circle is centered over the woman's face, and the word "Sunsetron" is written in a cursive, red font across it.

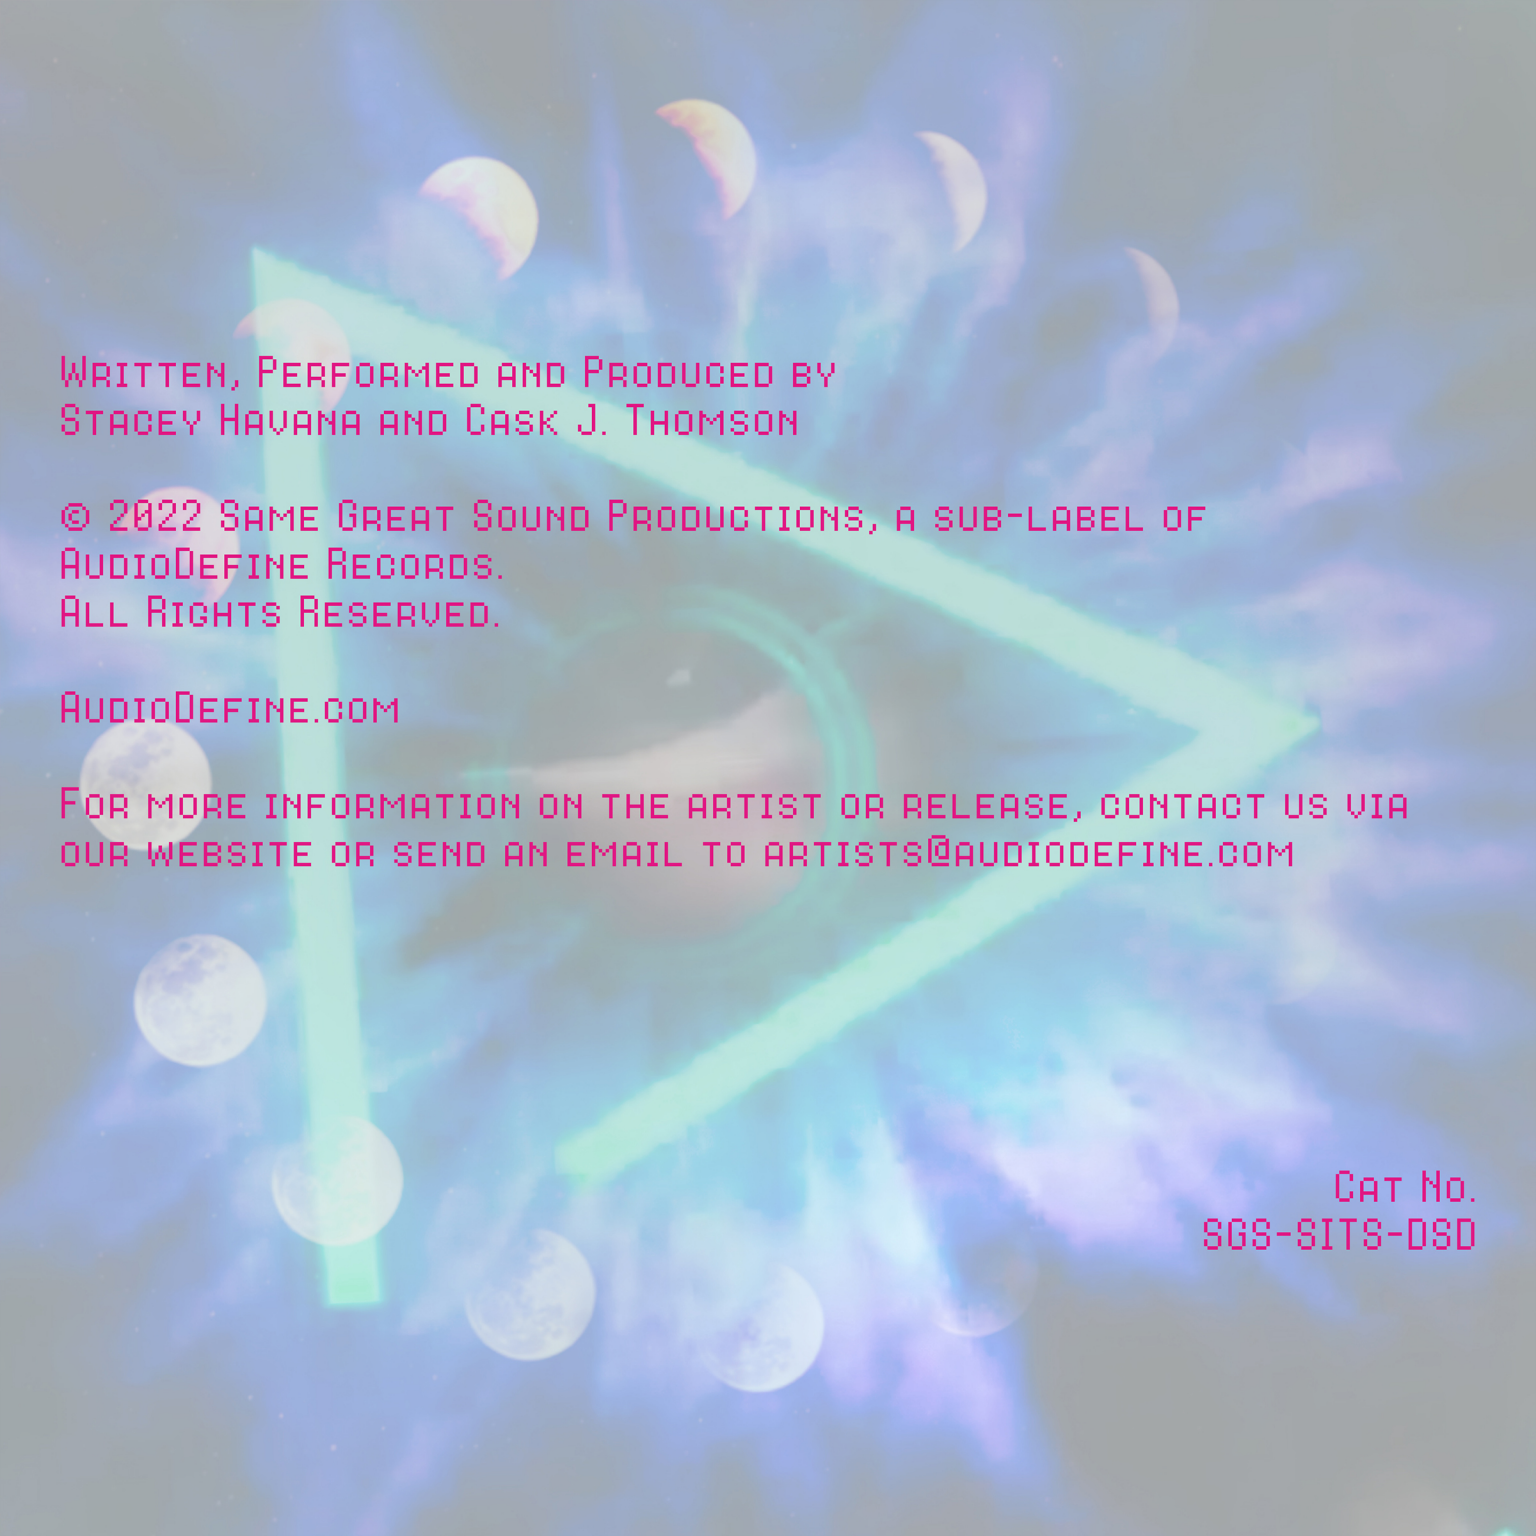

Sunsetron

INTO THE STRATOSPHERE

BOTH THE STANDARD AND INSTRUMENTAL MASTERS WERE RECORDED AT 15 IPS TO RECORDING THE MASTERS SM900 TAPE VIA A FRESHLY SERVICED AND CALIBRATED TEAC X-1000R REEL-TO-REEL.

THE ANALOG TO DIGITAL CONVERSION WAS DONE USING A TASCAM DA-3000 MASTER RECORDER. THIS PROCESS WAS REPEATED MULTIPLE TIMES FOR COMPARISON, ENSURING CONSISTENCY AND RULING OUT ANY ERRORS OR ARTEFACTS THAT DO NOT BELONG IN THE FINAL PRODUCT.

THE MIX AND MASTER WAS DONE USING HARDWARE EQUIVALENTS OF THE DIGITAL EFFECTS THAT WERE APPLIED TO THE NON-DSD RELEASE.

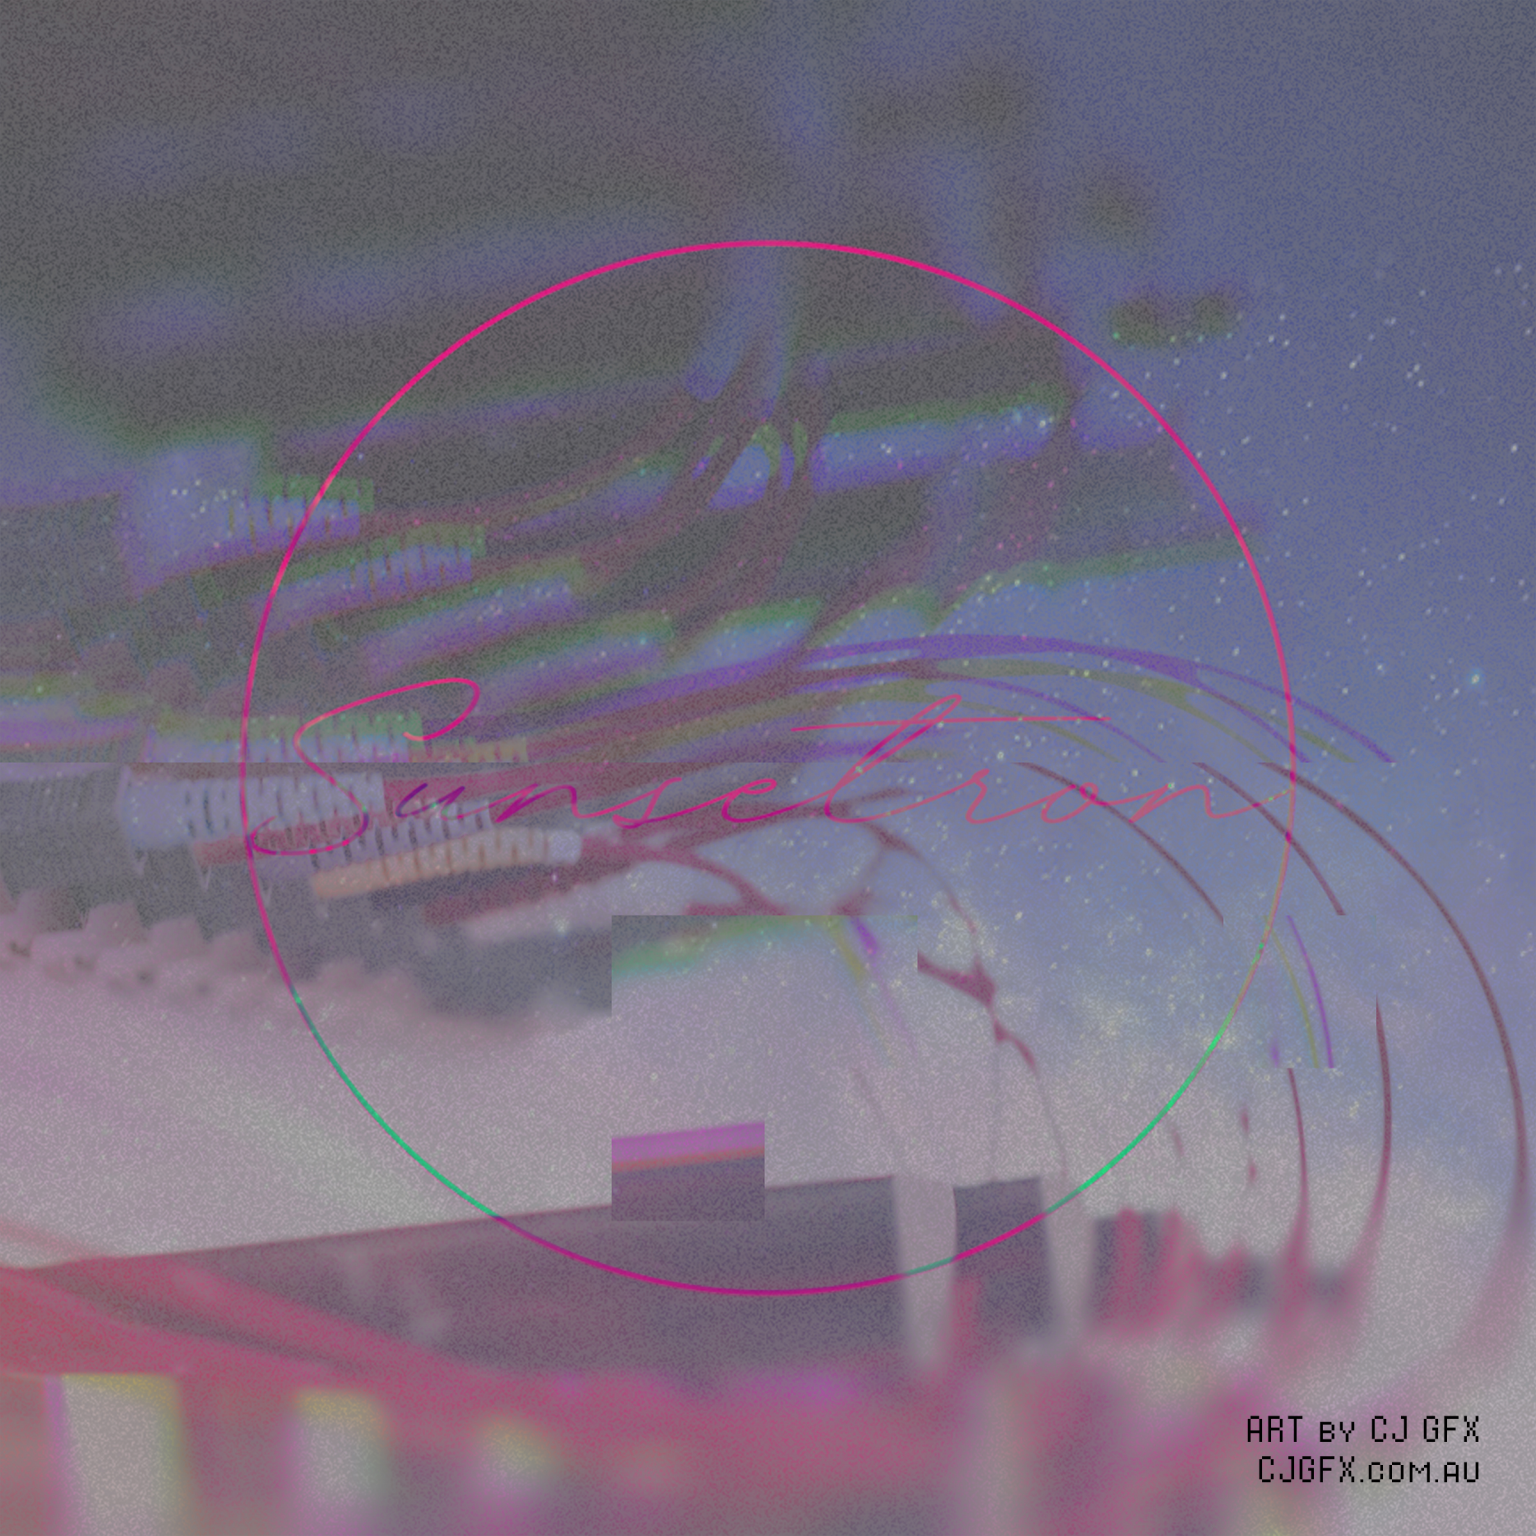

WRITTEN, PERFORMED AND PRODUCED BY
STACEY HAVANA AND CASK J. THOMSON
