

Certificate Number:

With this numbered certificate, we declare and guarantee that we have used analogue equipment. With analogue remastering and a full analogue pathway, taking the highest possible care.

Furthermore, we declare and guarantee that this copy has been individually made and quality controlled.

But remember it is analogue technology, there will be always some noise floor (we don't use Dolby) because it will kill the music enjoyment. Please listen with love for that old fashioned analogue recording technique.

Make sure that you clean your heads regularly for optimal frequency response. If you want more information don't hesitate to email us.
